

MITIGATION PRICING UPDATE

The Dungeness Water Exchange (DWE), began operations in 2013 providing permanent mitigation in the Dungeness Water Rule Area. This mitigation is provided for a one-time fee which has remained the same since 2013.

DWE is intended to be financially self-sustaining through mitigation certificate sales. Current certificate do not match actual operating costs, which have been supported by the WA Dept. of Ecology.

After more than eight years of operation, a price increase is required to cover the actual costs of providing permanent mitigation.

Current Pricing - \$4,000/Package

New Pricing and Packages

Effective January 1, 2023- \$5,250/Package

Mitigation Offerings

Indoor (150 gpd)

Basic Outdoor (210 gpd, April 15- Sept 15)

Up to 15 Stock (180 gpd)

Anything that falls outside of the above packages is "Custom".
Custom (on septic) is priced \$/consumptive afy as above
Custom (on sewer) is case by case.

The Dungeness Water Exchange (DWE) is a not-for-profit water mitigation program operated by Washington Water Trust and advised by a diverse group of local stakeholders.
